- b) We also added a # of example documents per your request:
- c) Example timeline with milestones
- d) 3 Project Theory Diagrams
 - TFS is ready now
 - SF policies and Retailer Licensing will be ready this week
- e) Sample Evaluation Plan
- f) Secondary data **will** be emailed to each grantee with the official release of HKCS Data (this month).

HELP!

FAQ

[Find everything TFCP related here](#)

- a) For TA support as you go through the assessment process, please reach out to CEPEG for with evaluation related questions, CSPH for key informant interviews and your STEPP POC for anything else.
- b) FAQ process –next deadline to submit questions is 5:00 on 7/20. Answers will be posted by 5:00 on 7/27, Send to STEPP email with “FAQ” in subject line.
- c) We have a new landing page on TFCO for all profile-related documents, resources and information.

Wait. Where's the Profile Template?

Thank you all for being patient. Working to make doc serve a dual purpose, both as a summary of findings and for use in the community.

QUESTIONS?

The Partner Tool is an available option for anyone who is working with a coalition. You may want to use this tool as an activity in your implementation plans. We wanted to share this with you as something you can consider as you layout your work for FY20-21. This would be a good discussion to have in your strategy selection meetings.

Partner Tool

“A social network analysis tool designed to measure and monitor collaboration among people/organizations”

So what is it? The Partner Tool is “A social network analysis tool designed to measure and monitor collaboration among people/organizations”

Designed for use by collaboratives/coalitions:

How members are connected

How resources are leveraged and exchanged

Levels of trust

Link outcomes to the process of collaboration

It was developed specifically for coalitions and collaboratives

It will help you to answer a number of key questions including:

How your coalition members are **connected**

How they **leverage and exchange** resources

The levels of **TRUST** among members, and linking **outcomes** to their collaboration

Includes

Online survey for you to administer

An analysis program that analyzes these data

www.partnertool.net

The Partner Tool utilizes an online survey which you share with your coalition and you have access to an analysis program that analyzes this information.

You'll be able to ascertain the quantity and quality of the relationships
Any gaps, vulnerabilities or inefficiencies that exist
How members can remain accountable and much more.

I've included a link to their website here for you and it includes a lot of good information, including an FAQ

How it Works

1. One person designated, “Manager”. Will identify survey participants and is responsible for data management
2. Members of coalition answer surveys online
3. Manager stores data and imports it into the PARTNER tool
4. Together, Manager and coalition members discuss results and next steps

Walk through

TYPE	PRICE	NEW BATCH RATE 10+
Public/Non-Profit Use	\$125	\$75
Full Collaborative Report	\$275	\$225
Highlights Report (2 pager)	\$125	\$75
Technical Assistance	\$100/hour	
Demo, webinar, in-person	➤ \$\$\$	

The cost for using the tool and also receiving the resulting report is listed here. It would be \$125 per LPHA **or** \$75 if there are 10 or more. An in depth report is \$275 **or** \$225 if there are 10 or more agencies. They also offer an abbreviated 2-page highlights only report as well.

Where the tool has the **potential** to be costly, is with Technical Assistance. The hourly rate is \$100. They also offer Demos, Webinars and In-Person Trainings.

The Big Question

Interest in STEPP coordinating a **GROUP** training?

Any *additional* TA needed?

Out of pocket

So my question for you all today is...is there interest in STEPP coordinating and providing a **GROUP** training?

There is one caveat. Should there be a need for additional TA **after** the STEPP group training, grantees would need to cover those costs within their own budgets.
